

RHU President's Speech to Students at the Start of Spring 2026.

Welcome to a new academic semester filled with opportunities for growth, discovery, and achievements. Consider spring 2026 as a fresh chapter in your academic and developmental journey.

I encourage you to embrace it with energy, determination, and focus.

Make it a priority to intensify your efforts and commit to excellence in all that you do:

- 1. Study diligently and manage your time wisely.**
- 2. Visit your learning support center and the library.**
- 3. Engage in laboratory activities with curiosity and discipline to practice, build strength, and deepen understanding.**
- 4. Seek guidance from your advisor; make the most of the office hours, he/she is here to support your academic and personal growth.**

I urge you to remain focused, attend all your classes, and actively participate in class discussions and activities. Success is the result of hard work. It is not accidental; it is the outcome of effort, discipline, and engagement.

Together, let us make this semester one of achievement, unity, and pride.

Wishing you all a productive and inspiring journey ahead.

Regards,

Dr. L.
